

UIW Service Mission Scholarship Application

Overview

The UIW Service Mission Scholarship aims to help financially qualified UIW registered students defray some of the costs of participating in an official UIW international service mission program. Official service mission programs encompass a UIW program, center, or department representative that lead UIW students to an int'l location aimed at implementing UIW's mission of service for our global community.

Award

For students to be eligible for this tuition reduction scholarship, the service mission program must be preapproved by the International Affairs Office. It is the responsibility of the leader or director of the mission program to obtain preapproval in writing.

Students, who are financially qualified, may receive up to \$500.00 in tuition reduction per int'l service mission program. If financially qualified, the tuition reduction scholarship will be automatically applied towards the student's tuition. Students can only be awarded up to (1) any unused funds cancelled if the student drops out.

The International Affairs Office

NOTE: Funding for the UIW Service Mission Scholarship is provided by the International Affairs Office. Furthermore, I understand and it is up to \$500.00 in tuition reduction. All awards
